

How To Use The Plug-Rench

Plug-Rench™
by TEK-NAUTICAL
Willoughby Hills, Ohio 44092

Plug-Rench™ is a stainless steel wrench designed for installing or removing the drain plug. It is cleverly equipped with a threaded holder into which the drain plug is stored when not in use. The Plug-Rench™ stores in plain sight on your steering wheel where it is sure to catch your attention. The front end of the wrench fits securely into the fuel cap slot for refueling purposes.
